LA SPAZZOLA CLASSIC DR. QUALITY PARTS
Le Spazzole tergicristallo CLASSIC DR QUALITY PARTS sono una linea di spazzole tradizionali con archetto in acciaio inossidabile per offrire un maggior supporto alla gomma tergente. Il loro ottimo rapporto prezzo qualità le rende la soluzione ottimale per tutte quelle vetture dotate dei bracci tergicristallo ad uncino, garantendo la pulizia del parabrezza anche nelle condizioni peggiori.

ADATTATORE 3 in 1
Il connettore premontato multifunzione 3 in 1 dal montaggio facile ed intuitivo per i bracci ad uncino, baionetta e con fissaggio "side pin" rende le spazzole CLASSIC adattabili ad oltre il 98% del parco circolante. Per le misure più piccole è previsto un secondo connettore per bracci ad uncino di dimensioni inferiori.

STRUTTURA IN METALLO
Il telaio completamente in metallo con rivestimento resistente alla corrosione ed alla screpolatura assicura una lunga durata anche negli ambienti più estremi. Inoltre gli archetti multipli snodabili rivettati al telaio, grazie alla pressione esercitata, evitano fenomeni di chattering sul parabrezza

GOMMA NATURALE GRAFITATA
La gomma al 100% naturale con rivestimento in grafite garantisce una perfetta tergitura del lunotto posteriore ed una lunga durata in completa silenziosità.

LA SPAZZOLA FLAT DR. QUALITY PARTS
Le Spazzole tergicristallo FLAT DR QUALITY PARTS sono state progettate per aderire a qualsiasi parabrezza in modo uniforme, per eliminare pioggia e detriti anche nelle condizioni peggiori. La loro linea elegante e la lunga durata sono caratteristiche molto apprezzate da tutti gli automobilisti.

ADATTATORI MULTIFUNZIONE
Grazie al sistema di montaggio multiplo, i 12 adattatori multifunzione in dotazione sono utilizzabili su 18 bracci differenti, permettendo alle spazzole FLAT di coprire il 99% del parco auto circolante

VERTEBRA SINGLESPRING
La struttura interna in acciaio armonico a singola vertebra applica una pressione costante lungo tutta la lunghezza della spazzola. Rispetto alle spazzole a doppia vertebra (più economica, ma meno efficace), le spazzole FLAT sono più stabili e resistenti, garantiscono tergiture ottimali e una durata allungata della parte tergente.

DESIGN AERODINAMICO
Grazie al sottile spoiler protettivo in gomma termoplastica le spazzole FLAT hanno un design aerodinamico e discreto che favorisce il campo visivo del conducente, riduce il rumore causato dal vento ed impedisce il sollevamento della spazzola alle alte velocità. Al contrario delle spazzole con spoiler in PVC le spazzole FLAT , sono ignifughe e atossiche e mantengono una maggiore piacevolezza visiva e al tatto anche dopo la prolungata esposizione ai raggi UVA.

GOMMA NATURALE GRAFITATA
L'elemento tergente in gomma naturale ed il rivestimento antiattrito in grafite assicurano una tergitura ottimale e silenziosa in assenza di fenomeni di chattering sul parabrezza.

WELCOME WINTER
Le spazzole FLAT non hanno problemi coi climi freddi, niente ghiaccio sulla sovrastruttura

DR. QUALITY PARTS FLAT WIPER BLADE
DR QUALITY PARTS FLAT wiper blades have been designed to adhere evenly to any windscreen to eliminate rain and debris even in the worst conditions. Their elegant lines and durability are features that are highly valued by all motorists.

MULTI-PURPOSE ADAPTERS
Thanks to the multi-purpose installation system, the 12 multi-function adapters supplied can be used on 18 different arms, allowing the FLAT brushes to cover 99% of the vehicle fleet.

SINGLE SPRING SPINE
Its internal structure features a spring steel spine which applies constant pressure along the entire length of the wiper blade. Compared to the double-spine versions (cheaper but also less effective), FLAT blades feature greater stability and resistance, ensuring an optimal wipe and a longer durability of the wiping element.

AERODYNAMIC DESIGN
The thermoplastic rubber spoiler provides FLAT wiper blades with a discrete aerodynamic design which improves the driver's field of vision, reduces wind noise, and prevents lift-off at higher speeds. Unlike wiper blades with PVC spoilers, FLAT wiper blades are fire-resistant and non-toxic. They are also very pleasing to the eye and to the touch even after a prolonged exposure to UV rays.

GRAPHITE-COATED NATURAL RUBBER
The natural rubber wiping element and anti-friction graphite coating ensure a chatter-free, silent and optimal wipe.

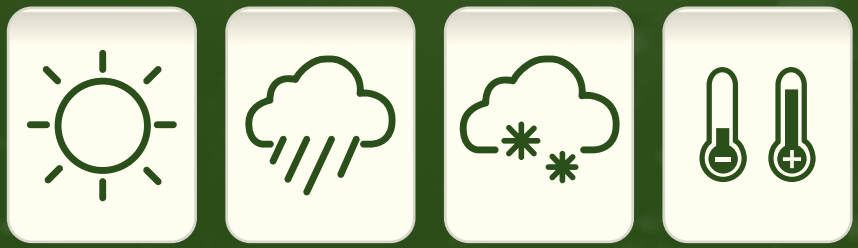

WELCOME WINTER
FLAT blades have no problems with cold climates, no ice on the superstructure
